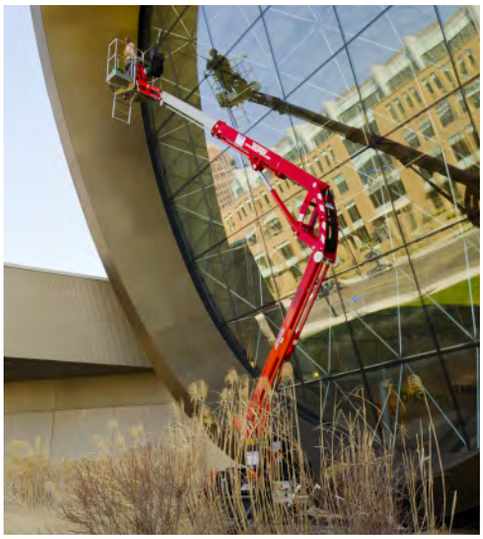
LEO Series



ACCESS REDEFINED

The LEO Series from Teupen provides the most efficient height access solution in the industry. Safety and access are challenges many construction and facility maintenance professionals face in regards to aerial lifts, but not with Teupen.

- Passes through standard doorways
- Reaches working heights of up to 163 feet
- Features multiple power sources for indoor/outdoor work
- Replaces scaffolding

THE TEUPEN DIFFERENCE

Manufactured for over 35 years, Teupen is the global leader for Compact Track Mounted Lifts. On the local level, Teupen USA provides sales, service and training support to the Americas.

- German engineering and craftsmanship
- U.S.-based parts stock and service support
- Built to last and retain value
- 2-year total machine warranty

Model	Platform Height	Outreach	Weight	Doorway Access
TL35A-G	35 ft 5 in	19 ft 10 in	3,285 lbs	Single Door
TL44AJ	44 ft 6 in	25 ft 1 in	4,850 lbs	Single Door
TL51A	51 ft 2 in	24 ft 10 in	5,291 lbs	Single Door
TL54AJ	53 ft 6 in	27 ft 11 in	5,401 lbs	Single Door
TL63A	62 ft 10 in	39 ft 4 in	6,570 lbs	Double Door
TL69A	68 ft 10 in	36 ft 8 in	6,592 lbs	Double Door
TL76S	76 ft 7 in	49 ft 2 in	8,989 lbs	Double Door
TL92SJ	91 ft 10 in	45 ft 11 in	9,480 lbs	Double Door
TL110SJ	109 ft 11 in	45 ft 7 in	10,803 lbs	Double Door
TL123AX	123 ft 1 in	54 ft 9 in	26,235 lbs	Double Door
TL156AX	156 ft 6 in	49 ft 10 in	29,983 lbs	Double Door

A = Articulated; S = Straight; J = Working jib; E = Electric Motor Only; G = Gas Engine; X = 880lb basket capacity

LEO Series Key Features

COMPACT, LIGHT & PORTABLE

Teupen makes lightweight machines for working in areas with floor load restrictions or sensitive surfaces—such as hardwood, tile and grass. Machines also collapse to a compact size for maximum portability from one job to the next.

- Low ground pressure — less than 100 psf surface load
- Rubber, non-marking tracks
- Weighs one-third the weight of similar machines

SAFETY FIRST

With Teupen, worker safety is a guarantee. Intelligent control logic and superior design and construction provide an extremely smooth and accurate lift operation.

- Rigid boom operation, precise electric control
- Hoses and wires routed through the boom
- Computer-monitored, integrated safety system
- Designed, built and tested to ANSI and CSA standards

VERSATILITY WITH EASE

Let LEO do the work for you. Whether uneven, sloped or tight, complicated surfaces and small work areas are no problem.

- Automatic, self-leveling outriggers
- Height and width adjustable tracks
- Ready to work in just a few minutes with the push of a button

FLEXIBILITY IN APPLICATION

Teupen machines provide the ultimate tool in diverse job site applications. Whether craning to the top of a building, entering narrow access points, setting up on steep slopes or navigating high-end tile surfaces, the LEO offers the best solution.

- Crane lift points on all machines
- Multi-position outriggers
- Diesel, electric and battery power options (dual power on every machine)
